

A Better Way to Fight Workplace Fires

E Fire USA is devoted to making the world safer by providing innovative firefighting solutions that reduce property damage, environmental damage and, most importantly, the loss of life.

Its flagship products, the **E-Fire Ball** and **HAFEX Aerosol Fire Extinguishing System**, provide a better way to prevent and suppress workplace fires and mitigate loss. Both can extinguish Type A, B and C fires and are non-toxic, self-activating and environmentally safe. Their recommended placements are near machinery and generators, in electrical and storage rooms and other areas susceptible to fire. Connect them to existing fire systems, smoke alarms and security systems for peace of mind.

E-FIRE BALL

The E-Fire Ball's simple design and ease of use effectively suppress and extinguish fires. The dry chemical powder fire suppressant automatically activates within 3-5 seconds upon contact with flames. The patented E-Fire Ball is six inches in diameter and made of rigid plastic foam with an abrasion-resistant coating.

- Active use – In emergency situations, throw the ball directly into a fire to activate upon impact or for flame activation.
- Passive use – Mount a ball in the desired area
- to self-activate seconds after contact with flames.
- Five-year warranty
- Seven- to 10-year life span

HAFEX AEROSOL FIRE EXTINGUISHING SYSTEM

Use the HAFEX Aerosol Fire Extinguishing System to protect your business from property damage and keep your workers safe from harm. It offers multiple forms of activation and provides comprehensive area coverage. The non-pressurized aerosol particles bind to free radicals to quickly extinguish a fire. Each system is non-corrosive, has a 15-year life span and a 10-year warranty.
